THE OTTIE WORLD TOKEN

OTTIE

Awarded in monthly competitions. Intended for use in the game.

- 33,000,000 max supply
- Currently 100% burned on use
- Solana SPL

HOW OTTIE WORKS

SUPPLY

How much OTTIE can exist

The token program on Solana, as published, refuses to create OTTIE if it would push the amount in existence above 33,000,000. The team allocation is created once at launch; reward OTTIE is not yet created and is created over time through competitions.

MAXIMUM SUPPLY

33,000,000

Most OTTIE that can exist at once

TEAM ALLOCATION

7,000,000

21.2% of the maximum · created once at launch

REWARDS, NOT YET CREATED

26,000,000

78.8% of the maximum · may be created as rewards over time

CURRENTLY BURNED WHEN USED

100%

Current setting for OTTIE used in the game

Rewards, not yet created

Up to 26,000,000 OTTIE may be created as rewards over time. It is not minted in advance and not held in a wallet: each reward is created when it is delivered, into the recipient's own Solana wallet.

78.8%

Team allocation

7,000,000 OTTIE, created once when OTTIE launches. The program, as published, does not allow that one-time mint again. The team allocation is created at launch; reward OTTIE is created over time through competitions.

21.2%

CREATION

Where every OTTIE comes from

1

One launch mint

The 7,000,000 team allocation is created once, at launch. After that, the program, as published, keeps the launch mint closed.

2

Rewards, and only rewards

Every other OTTIE is created by the token program when a monthly competition's rewards are delivered, directly into each recipient's wallet. Rewards are not created or held in advance.

3

The maximum is checked every time

Before creating any OTTIE, the program checks how many exist right now. If the new total would pass 33,000,000, it refuses.

BURN

Using OTTIE in the game

- **Currently, 100% of OTTIE used in the game is burned:** removed from the Solana blockchain.
- **Burned OTTIE is destroyed.** It cannot be restored.
- **It leaves room under the maximum.** The program counts what exists right now, so burned OTTIE leaves room under the maximum for newly created competition rewards.
- **The maximum does not move with use.** The program, as published, refuses to create OTTIE above 33,000,000 in existence.

DESIGN

How it is built

A max supply that is enforced

The maximum supply of 33,000,000 is checked by the token program itself on every mint, against the live total on Solana.

Rewards are not stockpiled

Apart from the one-time team allocation, OTTIE is not minted in advance. Every reward is created by the token program when it is delivered, into the recipient's own wallet.

No freeze authority

The token is created with no freeze authority, so the token itself gives no one the ability to freeze a holder's OTTIE.

Burns are final

Burned OTTIE is removed from the blockchain's total supply. It cannot be restored or re-issued.

Public on Solana

Every mint and every burn is recorded on the Solana blockchain, where anyone can check the total supply.

Public, verifiable code

The token program's source code will be published at launch so anyone can verify it matches what runs on-chain.

TOKEN FACTS

Name	Ottie World
Ticker	OTTIE
Network · standard	Solana · SPL token
Decimals	6
Maximum supply	33,000,000 in existence at any one time
Team allocation	7,000,000 (21.2% of the maximum), created once at launch; held by the team
Rewards	Up to 26,000,000 (78.8% of the maximum); not yet created; may be created as rewards over time
When used in the game	Currently 100% burned
Program	Upgradeable
Freeze authority	None
Token address	EQrk7ym8jyhfdH7nr46q3iW4ctHYqXajrw3XFiv4tjSp

IMPORTANT INFORMATION

Please read

FOR USE IN THE GAME, NOT AN INVESTMENT

OTTIE is intended for use inside Ottie World for in-game activities that we choose to make available from time to time. It is not offered or awarded as an investment, savings product, security, share, deposit, e-money, or payment instrument, and it is not intended to be acquired or held with any expectation of profit.

NO PROMISE OF VALUE

We make no promise, statement, or representation that OTTIE has, will have, or will keep any value, price, liquidity, market, or exchange listing. Nothing in this document is financial, investment, tax, or legal advice, or a recommendation to acquire, hold, or dispose of OTTIE.

NO RIGHTS AGAINST US

Holding OTTIE gives no ownership interest in, share of, or claim against Ottie World, its operator, its assets, or its revenue, and carries no dividend, profit share, interest, voting, governance, redemption, or repayment right.

OUTSIDE THE GAME IS OUTSIDE OUR CONTROL

We do not operate, control, endorse, or support any exchange, marketplace, trading, price, or listing involving OTTIE outside Ottie World. Any dealing in OTTIE with anyone other than us is entirely between you and them, at your own risk. OTTIE is not sold through Ottie World, and we do not buy back, redeem, or refund it. The team and persons connected with it may hold OTTIE and may acquire or dispose of it at any time, without notice.

USING OTTIE

Currently, OTTIE used in the game is consumed and permanently destroyed; how used OTTIE is handled is one of the things we may change, and any such change is publicly visible on the Solana blockchain. Anything received in the game by using OTTIE is a limited, revocable, in-game licence feature under the Ottie World Terms. We may add, change, limit, suspend, or remove any in-game use of OTTIE, any way of receiving it, or the reward programme, at any time. If Ottie World or a feature ends, OTTIE may still exist on the blockchain but have no use in the game.

REWARDS

OTTIE rewards are discretionary gameplay features, awarded in competitions that cost nothing to take part in. They are only for players aged 18 or over who are permitted to receive them under the laws that apply to them and who meet the eligibility requirements we apply at the relevant time, which may include account, fair-play, and security checks. Rewards may be withheld or forfeited for cheating, abuse, or breach of the Terms. If a month's rewards would take OTTIE above its maximum supply, every reward that month is reduced by the same percentage so the total fits. Reduced rewards are rounded down to whole OTTIE, and a reward that rounds down to nothing is not sent. A reward is not owed until it has been delivered.

YOUR WALLET, YOUR RESPONSIBILITY

OTTIE is sent only to the Solana address you save in your account. Blockchain transfers cannot be reversed; OTTIE sent to a wrong or inaccessible address is lost. We never hold OTTIE for you and will never ask for your private key or recovery phrase.

TECHNICAL RISK

OTTIE depends on the Solana network and on software that may contain errors, be interrupted, or change. The token program may be updated to fix issues or add features; any such change is publicly visible on the Solana blockchain. Statements in this document about what the program does describe the program as published. We may pause reward delivery, or the use of OTTIE in the game, to protect players, the game, or the token.

YOUR OBLIGATIONS

You are responsible for the laws that apply to you, including any tax. OTTIE features may be unavailable where offering them would be unlawful or inappropriate. We may ask for information that the law requires us to collect.

THIS DOCUMENT

This document explains how OTTIE is designed. It is not an offer, a contract, or a promise. The Ottie World Terms govern OTTIE and prevail over this document. Figures describe the design at the time of publication and may change.
